

REMARKS

Claims 1-16 are currently pending in this application.

Applicants have amended claim 16 to correct an inadvertent typographical error and to place this application into better form for issuance. Support for the amendment can be found in previously presented claim 16 and in the Notice of Allowability, for example, page 3, line 11, where it is stated that the power generation portion is “based on the different stop conditions and also based on the load power detected . . .” (emphasis added). This Amendment adds no new matter to the application.

In the Examiner’s Amendment beginning on page 2 of the Notice of Allowability, Applicants noticed that the Examiner inadvertently omitted the word “on” following the insertion of the phrase “also based” in line 8 of claim 16. Since Applicants agreed to the Examiner’s insertion of the phrase “also based on” in line 8 of claim 16, as evidenced by line 11 of page 3 of the Notice of Allowability, Applicants have amended claim 16 to include this recitation.

Because the application has been allowed and the issue fee is being paid concurrently herewith, this Amendment merely places the application into better form for issue. Accordingly, the Applicants respectfully request entry of the Amendment After Allowance under 37 C.F.R. § 1.312 and the issuance of a post-allowance communication reflecting such entry.

Respectfully submitted,

Akinari Nakamura, et al.
